Berlin, 15th—The opposition of the Emperor and some prominent military men to the reduction of military service to two years will probably prove an obstacle to its approval by the Reichstag, in spite of Chancellor Caprivi's support of the measure.

Paris, 15th—The *Gaulois* says that a new Triple Alliance has been formed by France, Russia and Turkey. In political and diplomatic circles it is thought that Turkey has made no such alliance, as, if she had, the event would be of extraordinary importance.

Genoa, 15th—The fetes have been brought to a close with a magnificent banquet, at which there were several enthusiastic toasts for Genoa and Italian-American fraternity.

Roselli, the ex Minister of Education, drank to the Argentine Republic, which so many thousands of Italians had made their home, and General Mitre, the translator of Dante.

Paris, 15th.—The *Figaro* says that Turpin, the inventor of melinite, has solved the problem of aerial navigation.

London, 15th—At the Bank of England meeting it was announced that Baring's liabilities had been reduced to £8,000,000.

New York, 15th—Some deaths from cholera have occurred, but have caused no alarm.

The residents on Fire Island are calmer as to the place being made a Lazzaretto, due to the energy displayed by the Governor of the State.

Madrid, 15th—Feverish activity is being displayed to finish the beautiful Palace for the Columbus Exhibition.

The papers say it will be a marvel. The fetes will commence in a few days, when the Queen arrives from San Sebastian.

London, 15th.—The *British Medical Journal* will publish to-morrow a statement that, on the very day that England was declared free from cholera a Jew in Liverpool who landed a fortnight ago from Hamburg was attacked with the disease.

Poitiers, 15th—President Carnot is expected here to review the 9th and 12th corps of the army.

(Per Havas Agency.)

Paris, 15th—President Carnot has left for Poitiers to review the troops that took part in the manœuvres there.

Genoa, 15th—The French squadron will sail to-morrow for France. Admiral Rieunier and his officers have received many proofs of esteem from the authorities and the people.

Hamburg, 15th.—At the instance of the Burgomaster the Senate of this city has voted a million of marks to the Municipality to fight the cholera epidemic.

New York, 15th—The outbreak of cholera here has been officially announced. Five deaths have already occurred from it.

San José, 15th—The President of the Republic of Costa Rica has proclaimed himself Dictator.

(To the "Prensa".)

London, 14th.—The authorities at Hamburgh have already commenced the works necessary to purify the waters of the Elbe, the bed of which has been divided into eight sections to facilitate the work.

Caprivi has abandoned the idea of fostering tobacco culture in Germany by raising the duty on the imported article.

It is said in Calcutta that Government will make no move to settle the silver question until after the International Monetary Conference. This has caused general discontent.

One of the sailors of the United States war-ship Newark has been murdered in a lodging-house in Genoa, and the crime is attributed to the general ill-feeling entertained there towards North Americans.

New York, 14th.—There was a general fall in securities on the London Stock Exchange yesterday.

Mrs. Harrison, wife of the President of the Republic, is dying.

The threatened disturbance about Fire Island being made a quarantine station has not come off. The armed men and boys "vamoosed" when they heard that troops were coming.

Brussels, 14th—Cholera has broken out at Lauenburg, near Hamburg.

VALUE OF HOUSE PROPERTY.

The Municipal Council has sent in a protest to the Intendente respecting the price at which Mr. Balbin has assessed the property to be taken from D. Goyo Soler for the Mayo Boulevard. It seems the area is 210 sq. metres, and the valuation $202,600 or $960 per square metre, at which rate "the whole of Mr. Soler's house would represent a value of $1,500,000 or £90,000 sterling." This figure is appalling, for it makes the rental value of the house of a private citizen in Buenos Ayres worth £5,400 sterling per annum, a sum far exceeding the rental of the houses of Baron Rothschild, the Duke of Westminster or the Earl of Derby, in London. In fact the highest rents known in London are from £2,000 to £2,500 a year.

The Council proceeds to point out that recent sales in the same Boulevard and its vicinity have been made at the following prices:—

1.—In Calle Victoria, beside Club Progreso 417 sq. metres at $340 per metre.

2.—No. 769 Calle Victoria, 966 sq. metres at $277 per metre.

3.—Boulevard Mayo, 405 sq. metres at $220 per sq. metre.

4.—No. 40 Calle Florida, 820 sq. metres at $276 per sq. metre.

The above sales give an average of $278 per sq. metre, or little more than one-fourth of what the city is called on to pay for Mr. Goyo Soler's property. This gives a fair idea of the tremendous waste of public money which the Mayo Boulevard involves, and explains the bankrupt state of our municipal finances. When the Municipality asks the National Government for a loan of $2,000,000, to continue the Boulevard, it it is plain that so trifling a sum would last only a few weeks, and another loan would be requisite before Christmas.

Note.—Since writing the above we learn that the attempt yesterday to sell by auction the Progreso Club and the old Saavedra house was a failure. The upset price was low.

THE BRITANNIA MAILS.

5 DAYS LATER.

London, Aug. 20th.

Egyptian stocks fell 2 per cent on the defeat of Lord Salisbury but have since recovered their old quotation of 97¼. The *Statist* of this morning says—

"Lord Roseberry's acceptance of the portfolio of Foreign Affairs removes all fear of a scuttling out of Egypt or truckling to any other Power.

"Mr. Glandstone's Government has, however, one great difficulty to encounter, the hostility of the House of Lords, which can throw out, if it pleases, every measure sent up from the House of Commons, but Lord Salisbury must foresee that a course of that kind would discredit the House of Lords and strengthen the Government.

The Silver question still engrosses attention. Dr. Soetbeer publishes the production of gold and silver in all countries since 1888 as follows:

	Tons	
	Gold	Silver
1888......	164	3,673
1889......	176	4,237
1890......	175	4,011
1891......	189	4,466
4 years...	704	16,387

He proposes that all European Powers and the U. States agree to fix the ratio between gold and silver as 20 to one, instead of 15½ to one as at present, the production at present being as 24 tons of silver to one of gold. The *Economist* says: "The Silver Conference will come to nothing. Three distinguished financiers have been sent to attend it, and their instructions are to smile amiably and promise nothing."

Paris, 15th Aug.

Some excitement has been created here by the arrest of Mr. J. H. Hobson, the ex-manager of the Anglo-American Bank in the Rue Scribe, on a charge of alleged irregularities in his accounts preferred by Mr. W. T. Hunter, the newly-elected president of the bank. Mr. Hobson was arrested on Friday last, and after examination by a magistrate was committed to the Mazas Prison. The accused is well-known in the American colonies, both of London and Paris, having been the Paris manager of Gillig's American Exchange, which suspended business several years ago.

Victoria, B. C., 14th.

The United States man-of-war Adams has seized in the Behring Sea the British schooner Mountain Chief, of Victoria, for killing seals in violation of the terms of the "modus vivendi." The vessels has been delivered into the charge of a British gunboat. The British steamer Winifred of Victoria, one of the vessels which transshipped her cargo of sealskins to the British steamer Coquillan, at Port Elches, has been seized by the United States cruiser Rush, with a quantity of newly-killed seals on board.

Lisbon, 13th.

It is stated that the Mozambique Company will shortly increase their import dues. The company are receiving numerous applications for concessions of every description to be worked in their territory. A regular transport service to Massikesse is being organised.

Brussels, 13th

It having been freely stated in several newspapers that there were no available troops to cope with the rising in the Congo Free State in consequence of all the men being with M. Van Corckhen in search of ivory, Capt. Chaltin in his last letter home, declares that he has successfully recruited natives, and that they were now actively engaged in constructing villages beyond the Belgain outposts on the opposite side of the Aruwimi river. He had also the intention of occupying a point on the left bank of the Congo, near the mouth of the Lomomi, in order to better observe the movements of the Arabs.

Rome, 13th.

The negotiations between the Italian and Russian Governments for the conclusion of a commercial treaty, which were commenced last year at the time of M. de Giers's visit to Monza and Milan, are still proceeding, and it is believ ed that a satisfactory arrangement will be arrived at before the end of the year. —*Reuter.*

Washington, 13th.

It is announced that, owing to the change of Government in Great Britain, it has not yet been possible for any agreement to be arrived at regarding either the time or place of the forthcoming International Monetary Conference, but it is expected that the matter will receive the early attention of Mr. Gladstone's Government.

Buffalo, Aug. 15th.

It is reported that 150 carriages were set on fire between ten and eleven o'clock this morning, and the fire is now burning fiercely. The object is to block the lines so that the trains cannot pass. Fifty freight cars are now blazing between Lancaster and Cheektowaga, a railway suburb of Buffalo. The Lehigh and Erie yard presented a dismal scene of devastation to-day. Upwards of 100 carriages have been burned.

The Police Commissioners are now busy swearing in special policemen on account of the strike.

It is reported that the strike is likely to spread to the Erie yards at Harrellsville. The switch-lights on the New York, Lake Erie and Western line were stolen early this morning. The object of the persons who carried them off was no doubt to render it impossible for the men to see how the switches had been set.

A Washington correspondent states that much interest is shown in military, railway and official circles over the strike, and the fear is expressed that if it continues to extend it may last until next year and become so general as to seriously, interfere with the traffic in connection with the World's Fair. A prominent military authority told the correspondent that serious fears of a general strike next year were entertained by railway men.

Paris, Aug. 13th.

In spite of the repeated reports of an agreement having been concluded between the Spanish Government and some Paris banks in regard to the projected loan, it is positively stated that nothing has yet been settled. It, however, appears certain that some arrangement will be made. The Spanish Government is believed to be no longer acting through the Bank of Spain, but to be negotiating directly with Paris. The matter will not be settled until the Spanish Ministers now in the country return to town.

Vienna, 13th.

An additional decree is published exempting gold imported for coining purposes from the ordinary stamp charges of two florins per kilogramme.

OUR LONDON LETTER.

(From our own Correspondent.)

August 20th.

You will find among the enclosures a few economic and financial items from which you can make a good half column. The article from the *Daily Graphic* on the Cotton Crisis in Lancashire is a plain and excellent statement of facts.

The article from the *Financial News* on the silver question is equally good with the one I sent before.

You will see in the *S. A. Journal* that Murrieta's private estates are in bankruptcy.

I have looked over all the papers and find no materials for my usual Saturday review. The weather is splendid. The clubs are deserted.

The *St. James's Gazette*, late edition, mentions an alleged case of cholera in Glasgow. The health of London is excellent considering the warm weather. Scarlet fever amongst the children was attacked vigorously by our sanitary authorities. Patients were isolated by almost forcible removal to the hospitals. The consequence is it was stamped out in a fortnight.

Gladstone held a Cabinet Council yesterday morning and he is off to Hawarden. There will be no more Cabinet Councils till October.

There are STANDARDS, I hear, to 20th July in town. My last is 17th. Mine will come no doubt by the Tamar, but they have not yet arrived.

POSTSCRIPTUM.

Argentines rose a trifle nominally on receipt of the budget. Yesterday they fell again; but are ¼ better to-day. Markets dull.

FINANCES OF URUGUAY.

(From an occasional Correspondent.)

Montevido, Sept. 13th

My letter of 22nd ult., to the STANDARD, appears to have greatly exercised the Editor of your contemporary here the *Montevideo Times*. After ridiculing my optimism, as compared with the gloomy views held by himself, and others here, he has persistently, but politely, invited me to discuss our respective claims to the gift of prophesy. I declined this, for obvious reasons, and now he has discovered, that I made use of information not accesible to the public; (which I beg to disclaim) that I wrote on the eve of the announcement of the very wonderful 'five million loan'; and, in short, charges me with rigging the market with a "very apparent bullish intention" (!!) I can afford to smile at all this. If it amuses him, or his readers, it does not harm me. The search for "mare's nests" is not a new or a profitable ocupation, and I willingly concede to him all the merits of his discovery.

I recur to the subject rather with a view of calling attention to the fact that my predictions are already being verified and that we have, apparently, passed low water mark. The Customs receipts, for August, reached nearly $700,000, far more than was expected; while, judging by the receipts, so far, this month should yield close on $800,000, so that one may confidently assume that the service of the foreign debt is practically assured, since any slight deficit during the months of least revenue can be made good out of the increased receipts during the other months of the year. I ventured to state my belief that the Government would continue to set aside the 45 % of these receipts, in compliance with the obligation contracted last year. I base that belief upon the very low-ground of self-interest, although willing to give the Government credit for higher and better motives. Neither this nor any other South American Republic can afford to be "boycotted" by European markets, any more than an unpopular tradesman in the West of Ireland can withstand isolation. And, apart from this, the Government here, be it Colorado, Blanco, or what you please, does "not" constitute the public opinion of the country. Any attempt to again break faith with foreign creditors (excepting under the stress of absolute impossibility to comply, and of this I see no sign yet) would, I feel sure, be met by such public indignation as no Government could resist.

The long expected, amended, Budget has, at length, been made known. The incubation has been tedious and severe. As you are hardly likely to wade through several columns of padding, I shall endeavour to summarize its salient points.

The reductions, as compared with the Budget of expenditure for 1891-1892, amount to $823,025, equal to 15% on all pensions, salaries etc. The estimated expenditure for 1892-1893, thus modified, amounts to $13,616,382, while the estimated income, based upon that of 1891-1892, is taken at $12,985,875, showing a deficit of $630,507. To cover this, it is proposed to raise $512,850 by additional duty and taxes and a better system of collecting certain existing taxes. The balance of $117,657 is left to the Legislative body to be made good out of the excessive salaries now paid to its members, a "hint" which I doubt not will be acted upon. You will possibly be pained to hear that the new Import Duty is imposed upon our familiar friend - the potatoe! Traslado á su amigo Daly.

All this is highly satisfactory if faithfully carried out, as I hope it will be. Income based upon the receipts of abnormally bad times and expenditure regulated by actual receipts. I imagine our old friend "Eventuales" must shift for itself, since our credit in the market is not such as to warrant any inordinate borrowing. A few years of this policy and a little more determination on the part of the Orientales to trust to themselves and to their own resources, not to New Banks or to "timbres voladores," would bring about a much different state of things here to that which now exists.

I decline to discuss the preposterous "five million loan" affair as a serious business, at least with the information yet vouchsafed to us. Nothing but the most incomprehensible credulity on the part of the President, (who alone appears to know aught of the mystery) could have led him into the ridiculous position that the bursting of this last bubble must land him. Cleverness and credulity would seem to be closely allied. The supposition that a body of French Jews would lend 5 million gold dollars to the Uruguayan Government, as at present situated, on the security of "flying stamps," amortizable in 36 years, a security that could never become a "marketable" article, is altogether too absurd for serious discussion. The very name of the security stamps the affair as a joke, assuming of course that we know all that has to be revealed on the subject, which I take leave to doubt, as I give President Herrera credit for more seriousness. I put out of view as a mere detail (!) the rate at which the loan has been "taken firm"—85% and 5 % interest!! There must be some exquisite joke underlying the business. Cannot the Editor of the *Montevideo Times* apply himself to its solution?

THE ARGENTINE MORATORIO.

THE BARINGS UNLOADING.

(From the "Investor's Review".)

We cannot but admire the courage and ingenuity with which the London financiers of the Baring estate endeavor to tempt the public to buy from them, although everybody knows that the project is bound to come to grief.

Most people also know that the longer the interest is paid in full in cash upon the 1886 loan, and that 6 per cent. bonds, also bearing interest in full in cash, are issued to represent the interest, &c., of the non-privileged debt, the worse the final settlement must be for the entire body of Argentine creditors. The new debt will dilute the old and reduce the general distribution most grievously. No one knows this better than the people who are working the ruin of Argentina and Argentine investors for their own ends, and yet they obstinately adhere to a plan which is bound to land them in disaster. They do it very skilfully too. All the old arts of the promoter and loan floater are brought into play to induce the public to buy.

The thing, however, is too big, the trick too patent, and the fright of the speculator has been too recent to make him ready to jump with his usual agility. One great aim, however, has probably been accomplished. Next to drawing in buyers the principal object of those who have the task of liquidating the Baring estate in hand is to stop genuine selling. The selling of the speculator who cannot deliver what he has sold they do not mind at all. Rather they court it hoping to "climb out on his back," but genuine deliveries of stock have to be stopped at all costs. And we think the rise which recent months have seen in Argentine securities has largely helped the financiers in this way. Only the very shrewd have been wise enough to "clear out on the rise" so as to reduce the loss they know to be inevitable. The great multitude have neither wisdom nor courage enough to do this. Instead, they, being ignorant, begin to have hopes that all will come right again, or they think they may at least wait a little so as to get another pound or two for their stock. And half the battle is accomplished when the mass of holders can be brought into this waiting attitude. By and by, if prices can only be kept up and worked slowly higher and higher, the bait will begin to attract that other set of people who play the part of the moth to the candle.

To Argentina itself this "Moratorium" abomination is proving a fearful curse. While it runs its course old abuses are kept alive, republican institutions are a farce, the old reckless political gang sits upon the necks of the people like Sinbad's old man of the sea, and the country is still in the grip of deficits.

LATEST FROM MONTEVIDEO.

Thursday Evening.

The death is announced of Mr. Guillermo Hoffman, an old German resident. He was held in high esteem here.

The Health Board have decided that sailing-vessels which have left infected ports before Aug. 15, shall undergo 48 hours' observation plus fumigation. Those sailing-vessels that left after that date must undergo quarantine.

The Custom House authorities yesterday apprehended three men who were caught smuggling in boxes of Havannah cigars, matches and other excisable articles.

The Health Board have agreed to demand an explanation from the Argentine Health Board for having given free practique to the Wordsworth, Dom Pedro, Diolibah and Ohio, upon which quarantine was decreed here. This attitude of the Uruguayan Health Board is unfavorably commented on by the *Telégrafo Maritimo.*

The s. s. Britannia has been put in quarantine, and her passengers sent to Flores Island.

Engineer Carlos Honoré, who was arrested by order of the Civil Judge, was released last night.

The Uruguayan steamer José Gibert has been embargoed.

The police have decided to send 25 well-known thieves out of the country

Mr. Alejandro Alvarez has been commissioned to form a Banco Agricola in connexion with an Insurance Company.

Dr Angel Brian's work on the Cholera epidemic of 1887 will shortly make its appearance.

De Martino's picture of the barque Puig, on view at the Hotel Oriental, is attracting great attention.

PROVINCIAL NEWS.

In reference to the town of Chascomus, we find in the *Dia* of La Plata the following interesting information:—The Municipal revenue this year has been estimated at $67,860, against $54,000 last year. The expenditure is about the same as the revenue. The Municipality derives a good percentage from the fisheries in the lakes, which form the peculiar feature of this district and constitute a good service of income for the town. It is to be observed that the revenue now derived from the fisheries is more than 100 per cent more than last year's figures, which were a little over $11,000. The town is blessed with a good mayor, "rara avis in terra," and to him is due much of the progress of the town. The town hall is a fine building and in it are, morover, the offices of the Juez de Paz, Registro Civil and other authorities. The building looks on the Plaza. There are three good plazas adorned with rare plants and very neatly kept. There are some lovely palm and magnolia trees and the walks are kept clean and weeded. The streets too are always clean, as the Municipality has a permanent gang of 80 men, whose business it is to sweep and repair the streets. In regard to the fisheries, it may be here observed that the tax which supplies the Municipality with so important an item of revenue is only levied on fish exported. The fish caught for local consumption is not taxed. Furthermore, the Municipality will not allow the local fishmongers to charge more than ten cents per kilo. No wonder the Municipality is so popular here. The hospital is supported in a great measure by the Municipality.

Advices from Mendoza state that the election of Vice-Governor Anzorena to the Governorship of the province is a forgone conclusion. We hope the new Governor will succeed in putting the finances of Mendoza straight.

In view of the alarming voracity and unprecedented audacity of the locusts this year, which threaten to eat up everything, the Santa Fe Government has named an exterminating committee, of which Minister Carrasco is chairman. The National Government have already contributed $30,000 towards the cost of extermination. In the meantime the settlers in the province, who have long since removed their trust in the Provincial Government and placed it in their own efforts, are organizing committees for the extermination of locusts. The said committees will, we suppose, feel inclined to carry the extermination process into other and much needed directions, for the colonies are still at the mercy of murderers, thieves and other malefactors.

THE SANTA-FE LAND COMPANY.

After the somewhat lively meeting of a year ago it might have been anticipated that the Directors of the Santa-Fé Land Company would have to face some hostility when they met the shareholders yesterday. But, though the Chairman was militant throughout his opening speech, and virtually invited the shareholders to tread on the tail of his coat, no one accepted the challenge, and not a solitary question was put while the meeting was in progress. Two gentlemen certainly voted against the adoption of the report, against the re-election of the retiring Directors, and against the customary vote of thanks to the chairman, and one of the two put a question at large after the meeting had been dissolved, but there was no real opposition. Mr. Lee, who is perhaps just a trifle off-hand in his manner, discounted questions in advance by hinting that he would only answer those he thought proper, and as the things the discontented brigade in the Santa-Fe Land Company want to know are precisely those which the Directors think best not to make public, there was no great temptation to heckle the chairman. Besides, Mr. Lee has come out well in the prolonged controversies which have raged about the management of the Company. He was able to quote yesterday an extract from his speech of five years ago—a speech which came in similarly useful at the meeting of June, 1891—in which he foretold various things that have come to pass, and thus justified his claim to be the right man to direct the affairs of the Company. It is easy to be wise after the event, Mr. Lee did not wait until the Argentine Republic and its individual Provinces were in a serious mess to declare what should or should not be the policy of this Company. When land values were high, Mr. Lee desired to sell large blocks of the property, but was over-ruled, because better prices were counted on; he has, however, proved to be right.

The Chairman yesterday declined to consider the reduction in the book value of the investments as permanent loss, but rather as suspense; but in view of his determination to refuse all indications of the nature of the Company's holdings, no means are afforded of judging of the propriety of this refusal. If the writing down has put the investments at a fair value, the Company has nothing to suffer from taking its own proprietors into confidence. By refusing all indications of the character of the investments, the Directors compelled the Company's critics to estimate the value of the holdings for themselves.—*Financial Times.*

SATURDAY HALF HOLIDAY

Mr. Editor—

I have read with interest the correspondence which has recently appeared in your columns on this subject, and I think a half holiday once a week quite necessary to insure the proper fulfilment of the week's duties.

As the matter now stands, when young men are forced to convert the Lord's Day into a holiday, it is a slur and a disgrace on any Christian community.

To me it is strange how the proverbial "Britons never, never shall be slaves" feeling, which is sung and chanted in every known land on the face of the globe, has not made itself more apparent on this matter before now.

Policy's suggestion that the Y. M. C. A. of Buenos Aires should take up the matter is a good one, and I think the subject is one which demands combined action of every young man in Buenos Ayres.

There is no doubt employers would soon verify the truth that encouraging their men in healthy recreation without encroaching on Sunday and Sunday duties would result greatly to their own advantage, while the Y. M. C. A. would find that their action in the matter would not be taken without returning them considerable and beneficial results.

Mr. Editor.

Having read *Policy's* letter in your issue of date I have much pleasure in offering in the name of this Association the use of their premises and rooms for the holding of meetings to discuss this subject. I will be pleased to arrange a date for this purpose.

ST. JOHN'S AMBULANCE.

On Tuesday evening the examination for those who have attended the series of lectures, held under the auspices of the St. John's Ambulance Association, in connection with the Barracas English Institute, on First Aid to the Injured, came off at 8.30. The attendance must have been in every way gratifying to Mr. Loveday, who during the whole course has expended not a little time and trouble on the formation and working of the class. Eighteen members presented themselves before Dr. Coulborne at the office of the Southern Railway, placed at their disposal by Mr. Barrow. A number of written questions were put and having been answered, the examiner put the applicants through a stiff course of triangular bandaging followed by stretcher-drill for carrying injured persons, and questions on the human anatomy; the result of which (though owing to want of time the written questions were not gone through by Dr. Coulborne) is generally thought to be favourable to the great part if not all of those examined; and when the result is announced finally they will be declared fit to render "First Aid."

Homo Sum.

OBSERVANCE OF SUNDAY.

The Laity have for a long time viewed with great regret the utter indifference of the governing body of the Central Anglican Church in Buenos Ayres to the wishes of the majority of Churchmen resident here. They have for a long time been crying out for a service more in accordance with the requirements of the times, more reverent and impressive, and worthy of the House of God; they have appealed in vain however, and consequently lost all interest until their Church-going has been reduced to the minimum standard of Churchmanship, viz. attendance on the three great festivals only. This has reduced the financial position of the Church to a deplorable state, and Churchmen generally rejoice to see it, as that seems to be the only effectual way of appealing to the management, and we may now hope that the requirements of the times will receive some consideration at their hands, and if not, the sooner there is a change of government the better.

The Clergy, I observe, view with regret the increasing tendency of the Residents to ignore the obligation of divine worship on Sundays. I therefore submit the above remarks for their consideration, in the hope, that viewing the matter in all its bearings, some effort may be made to bring about a better state of affairs.

RAILWAY ITEMS.

The Contaduria General have issued a report in reference to the reimbursement by the Argentine Great Western of 50% of its gross returns. The Company have presented a petition to Congress praying to be exempted from the provisions of Law 2835, which regulates thu payments of guarantees. The Company are anxious to be allowed to sink more than 50% of the gross returns in the expenditure. According to the contract, the Government guarantee an annual interest of 7% during 25 years. Art. 8 provides, moreover, that 50% of the gross returns be handed over to the Government until the amounts advanced as guarantee be repaid. The Contaduria General advise Government to make the company respect the contract.

EDITOR'S TABLE.

North wind, sultry temperature, our rheumatic subscribers regretting they were ever born, everybody out of sorts, and our decrepit barometer showing another fall—all combined yesterday to show that Santa Rosa is coming as fast as she can. Many amateur weather prophets say that we are in for a "snorter" like that of 1880, when every soul in the city thought that the Last Day had come.

The nerve-irritating weather deprived the country of the deliberations of the National Senators yesterday.

Our colleagues are all astray, and led us astray in respect to the raffle of Mr. J. B. Durand's chalet at Quilmes not being in perfect legal form. We had the pleasure of a visit from that gentleman yesterday, and he showed us the permit of the Municipality of South Barracas to hold the raffle. The title deeds are in the hands of said Municipality. We feel much pleasure in making this correction.

The following are the principal prizes of the Loteria Agentes de la Capital, drawn yesterday:—5000, 2000; 7911, 10746, 9451, 500 each; 7078, 8419, 8249, 200 each; 8350, 7531, 2543, 9783, 8021, 7478, 8162, each

The Minister of the Interior issued a decree yesterday establishing the bases for arbitration about that bag of rotten bones the Bateman Legacy. Dr. Rosa will be the Government arbitrator, and Dr. Virgil Tedin for the contractors. The arbitrators must decide within 30 days.

Santa Cruz Territory is to have a new Governor. Mr. Ramon Lista has been dismissed, and General Edelmiro Mayer, the talented translator of Smiles's works, will succeed him.

The Post and Parcel Convention with Paraguay was signed yesterday, so our friends at Asuncion can now send us presents of good yerba and bad cigars at a very low freight.

The Post Master General kindly sent us last night a telegram from La Paz, dated 4.30 p.m., stating that an enormous cloud of Locusts was then passing over the town, from West to East.

We regret to hear that the Emma, of the Argentine Yacht Club, was dismasted the other day in a squall off Paysandú. Messrs. Wilding, Kimball and Zimmermann were on board. Fortunately, Mr. John O'Connor's steam-launch Arturo picked her up and towed her into Concordia.

Señora Italia Calvé takes her benefit to-night at the San Martin. She may feel certain of a full house, as she is one of the best and most popular actresses in the city.

We had the pleasure yesterday of welcoming Mr. Lewis Jones, who has just arrived from Chuput. He reports everything flourishing in the Taffy Land of South America. The irrigation of the whole valley is now complete, and although the season has been dry it has had no bad effects upon farming, thanks to the irrigation facilities. We're glad to hear such good news from our Welsh countrymen

We have a letter from Miss Frances Sinnett, of Snowdrop Street, Stanley Road, Liverpool, requesting us to ask Mr. Lawrence Kelly, sheepfarmer in Buenos Ayres province, to communicate with her on matters of importance.

We thank the Escritores y Artistas for their kind invitation to the "opiparo" "lunch" they gave their friends at the top of this morning, about 1 a.m., and regret much that we were unable to attend. There is nothing we like better than a midnight lunch.

We want to hold a secret sitting with some used-up postage stamps man (we had better explain that it is the stamps, not the man, that are to be of the used-up order), as we have received a letter from Melbourne offering us business in the u. u. p. s. line; but just now we have no capital to go into it.

New York papers give an acconnt of the cost of printing $190,000,000 of green-backs for the U. States Treasury, amounting to $614,000, that is $3.30 c. per $1,000. But as the above amount was printed on 10,000,000 notes the cost of each note came to be six cents, which is much more than we should have supposed. The rotten small-note issue of Buenos Ayres must represent a considerable cost; another reason for the use of nickel coins, which last much longer.

The *Review of the River Plate* of Saturday last has a masterly article on London Boards of River Plate concerns; and a copy of the paper should be sent to every pompous guinea-pig in Modern Babylon connected with River Plate affairs. Our spicy colleague, amongst other home and unpleasant (for the guinea-pigs) truths says:—"We could name one director, sitting now on the board of one of our principal banks in Argentina, and elected presumably on account of his River Plate experience, whose local knowledge of Argentine banks affairs has been gained in a hard-ware store in Montevideo, and who has never resided in Argentina at all, nor knows anything more of Argentine affairs than any other "non-resident." We know of other oft-quoted "authorities," chosen as directors of railways, banks, &c., almost as a matter of course, in whatever provinces they may lie, and trusted implicity by shareholders on account of their profound local knowledge, who have never known any province or town of Argentina beyond B. Ayres, and whose real knowledge of the local needs or details of management called for by any particular enterprise is simply "nil," and yet these men will insist upon managing every petty detail from England, and after securing the services of a competent manager will immediately tie his hands and use him in many cases merely as a peg to hang their own blunders upon."

The death of Mr. Wilhelm Hoffman, one of the oldest and most respected residents of Montevideo, is announced. He succumbed to a very short illness.

There'll be a jolly row about the Cordoba Bateman Legacy, the San Roque Reservoir. The latest news from the City of Doctors is that the Government is in possession of documents that will put the contractors, engineers and all concerned in the job in a pretty considerable tight place.

Humanity is not easily discouraged. The man with the cracked voice always insists upon leading the singing.

The annual general meeting of the Lanus Cricket Club was held in the large audit office at Plaza Constitucion kindly lent for the occasion by Mr. Huxtable. Neither Mr. Barrow nor Mr. Huxtable, president and vice-president respectively of the Club, being able to be present, the chair was taken by Mr. Brayshaw. The annual reports of the secretary and treasurer having been read and adopted, officers were elected for the year as follows: President, F. W. Barrow, Vice-president, W. C. Huxtable. Treasurer, J. Brayshaw. Secretary, D. Duncan. Committee: H. Cornwall, F. Fothergill, W. Gregory, A. Lamont and R. C. Osborne.

Carlyle was one of the most painstaking of writers, almost every other word he wrote being erased and another put in its place. One day he went to the printer to urge him to push on with the work. "Why, sir," said the printer, "you really are so very hard upon us with your corrections. They take up so much time, you see." Carlyle replied that he was accustomed to that sort of thing; that he had works printed in Scotland, and—" "Yes, indeed, sir," interrupted the printer, "we are aware of that. We have a man here from Edinburgh, and when he took up a bit of your copy he dropped it like a red-hot cinder and cried out, Oh! preserve us! have you got that man to print for? Goodness only knows when we shall be done with all his corrections."

The Montevidean papers are as dry as dust or the weather. The two B's—the Bank and the Budget—are the sole topics in the unfortunate place, and are likely to be for months to come.

Those interested in Misiones and the settlement of the Boundary question with Brazil, which President Harrison has kindly consented to decide, should read the very interesting article on the subject in the "Boletin" of the Argentine Geographical Society by Mr. Valentine Virasoro, who is now engaged as expert on the Chilian Boundary Commission.

We have been favoured with a letter from Mr. Maguire, Argentine Consul-General in Canada, stating that the Superioress of the Convent of Notre Dame in Montreal is desirous of obtaining information of a man named Andrew Quinn, who on July 25th 1884, was a resident of Veinte-Cinco, Maipú, Buenos Ayres. Information can be sent to the Consul-General at Quebec.

The concert in the German Church to-night is a treat that should not be missed, as some of the best professional and amateur talent of the city will take part in it.

There was a bit of semi-tragic fun at La Plata on Wednesday as the Royal-mailer Tagus was about to sail. An itinerant son of St. Crispin was hawking boots about the dock when a pair of them fell into the water, and their owner, in grabbing at them, tumbled in with them. The passengers on board set up a skirl and shillabaloo; when John Travers, a seaman of the Tagus, jumped in and saved the man as he was sinking a third time. Not content with this, Travers, when the cobbler was in safety, did him another service by diving and bringing up his bundle of boots, which he had forgotten at the bottom of the Dock. Bravo! John Travers. The medal of the Royal Humane Society is yours, certainly ought to be.

Weather fine in London yesterday; News came in ten minutes.

Edison the inventor had a narrow escape of leading off at his own funeral last month. A telegram from New York of 13th ult says:—

"Mr. Edison's Ore Concentrating Works at Ogden, New Jersey, collapsed yesterday, burying 20 men in the ruins. By midnight 14 of the men had been taken out, two of them being dead, four fatally and eight seriously injured. Mr. Edison was present in the works just before the accident, engaged, upon some electrical machinery and narrowly escaped injury."

The latest funny advertizing pleasantry of our friend "The English" is the 'Russian Cure for Cholera.' Drop in there and get it. The generous proprietors give it free, gratis and for nothing.

The Club de Gimnasia y Esgrima, which still holds its own as the crack fencing club in B. Ayres, and whose list of members is daily increasing, has fixed Wednesdays for assaults between masters and members. Some splendid swordmanship is to be seen in the Club's saloons on those days, particularly in the evening, when Mr. Andres del Pino and other prominent members, reputed amongst the best swordsmen in the Plate, make a display of their skill and agility in handling sabre or foil. The shooting-gallery of the Club, a new and attractive feature, will be ready in a few days. The Managing Committee of the Club are at present very busy organizing the programme for the Columbus fetes.

Practical Girl—"You wish me to marry you, to go to the far West to struggle for existence on a timber elaim. Do you not fear that when poverty comes in at the door love will go out of the window?" Ardent Suitor—"No, indeed, We'll live in a dug-out and there won't be any window."

Is there no citizen with sufficient pluck to knock down and dance on the prostrate body of even one of those vile men and boys who hawk illustrated books of the most appallingly inmmoral kind through the streets? If one of the brutes were half killed for offering this abominable literature, even to young girls, it would attract public attention and perhaps lead to an expression of angry opinion and a remedy. The abuse is a disgrace to the city, and quite as bad as the recent Lais and Aspasia legislation of the City Duffers.

The game of Definitions bids fair to regain its popularity in fashionable circles in England, and as the days grow shorter it will doubtless afford much amusement and interest during the winter evenings. Amongst others, we have been favoured with the following specimens:—

THE ENGLISH:—
"An establishment where excellence in goods is combined with moderation in prices."
"The only house where you can obtain an improved pyjamas suit."
"A house where perfection in taste, resorts to procure perfection in comfort."
"A place to spand a happy day."
"An emporium equalled by none—superior to all."
"The home of contentment, were each one who buys,
Is sure to be healthy and wealthy and wise!"

To the above unbiassed extracts, it need only be added that the present is the best time for securing the invaluable advantages alluded to, as in order to prepare for the annual stock taking at the end of this month, all articles are now being sold at enermously reduced prices, many of them being actually marked at less than first cost!

Do for 1,500 m/n; buyer, Mr. D Lawry.
Mr. Eriberto Mendoza has sold 1,000 novillos in the south of San Luis at $21 per head; buyer, Mr Bombal, who will fatten the cattle in Mendoza for the Chilian market.
The splendid Gofre quinta on the Flores road, close to Lambaré, in Caballito, has been sold for $140,000 m/n Buyer, Dr. Pirovano.
The beautiful Ropes quinta, that stands on the very site of the old Pulperia Caballito, will shortly be put up for sale at auction by order of the heirs of Mrs. Ropes, deceased.
At Funes y Lagos's to-day there was a regular gathering of the Venado Tuerto and Loreto clans to attend the sale of cattle and the lease of the Las Tunas estancia, one of the finest properties about there. The lease for 3 years was sold for $1,800 m/n per league, which may be considered cheap for such a property. The cattle sold in "rodeos" as follows:—
Cattle—
1,000 head at $9.70; buyer, Salas.

Town is filled with estancieros and sheepfarmers from the camp. We suppose they have come to town to buy shears and twine. The shears are selling very fast, and some of the houses have sold out their entire stock.
We are indebted to Messrs. Lisandro Billinghurst and F. P. Marsan for a copy of the rules of the new mutual Insurance Company started on the Bolsa for the life insurance of its brokers and employees. The brokers' profession is one that specially claims the protecting arm of a mutual insurance company. Of all walks in life the broker's is the most subject to vicissitude. We have known brokers who at one time were millionaires die paupers and leave their families in the street. The ups and downs of fortune are more accentuated in the broker's than any other life. At one moment they are up on the Bolsa roof, at another on the floor of the cellar; the excitement and the wear and tear of a broker's life are sufficient to break down any constitution. We are with Mr. Billinghurst and Mr. Marsan in their scheme; every broker should insure his life, for no matter how well off, the premium which he pays will always serve as a kind of savings' fund. With the exception of editors, brokers are perhaps the hardest worked men in town, but they always have the advantage over the editor, that their occupation is not sedentary. The more active a broker, the more commission he makes; and we remember long years ago in the days of Armstrong and Lumb

that a young Englishman rose to be the first broker in the market, owing to his being able to walk faster and run round the corner quicker than all his contemporaries. We hope to see this new mutual Insurance company well supported and a thorough success.

The maize brokers are all busy again and corn cobs form the leading subject of conversation. Maize has risen to such a rank in this market that we no longer sell it by fanegas, curtillas, arrobas, but bags and tons form the market quotation now. Yesterday 1500 tons of maize were sold in 5 minutes, deliverable in the rivers at 6.70, and over 15,000 bags at 6.50 in the Central Station. Also a 1000 bags deliverable in the Rio Santiago at 6,70. Messrs. Bemberg and Co. have shipped in the steamer John Sanderson 53,323 bags and in the steamer Tarragona 33,956 for St. Vincent and orders. The wheat market is also very active, 3000 bags at the Central Station, Barleta bueno at 8,60. In the Constitucion a lot sold at 9,30; in the Once 700 bags Candeal inferior at 7 and superior at 10,80. In Rosario 24,000 bags of afrecho and 14,000 bales of hay for Rio Janeiro. The steamer Patagonia takes to Hamburg 1000 bags of borax, 4000 of wheat, 500 maize, 20 of tartago, 246 of minerals, 1500 boxes of quebracho extract and 1400 pieces of quebracho.

The gold market continued firm and rising at the second ring, but operations were small. The ounce closed at 53.30$, say 227.49% premium. Patriotic and Internal Bonds were a shade weaker. All other stocks remained more or less stationary, except La Plata Cedulas which fell to 29.90.

The following is a summary of the business effected in stocks and shares at the second ring to-day :—

Ounces—
Sep. 16.... 2,317 at 53.20-30.
Sovereigns—
Sep. 16 .... £100 at 16.50.
Patriotic Bonds—
Sep. 16.... 105,000 at 73.40-10-20·
Internal Bonds 1892—
Sep. 30...... 110,000 at 67.80-70.
Catalinas Moles—
Sep. 16.... 2,000 at 10.90-80-90-
Sep. 30.... 700 at 10.70-11.
Oct. 31.... 200 at 11.00.
Provincial Hypothecary Cedulas—
Sep. 16..K 10,000 at 30.10.
Sep 16...N 68,150 at 30-29.90.
Sep. 16..O 20,000 at 30.29.90.
Sep. 16..P 97,000 at 30.29.90

There was no bid to-day at Messrs Bullrich's auction of the Progreso Club building. Mr. Frias's house could not be sold owing to same cause.

The Contaduria General has paid the executors of Mr. Thomas A. Walker $4,276 gold for telegrams and other expenses arising from the stoppage of the port works.

Messrs Pallini and Company applied to the Government for authority to extract guano from the Patagonian coast.

Mr. Christophle, engineer, has applied to the Minister for $23,310 for work done on the bridge over the Rio San Juan last month.

A nice question seems to have arisen in that muddy but historic spot called Demarchi Island, at the mouth of the Riachuelo. Messrs Madero and Sons have applied to the Government to stop the Riachuelo Committee from fencing in that portion of the island which belongs to them under the port-works contract, and the land in question is expressed and marked on the plans of the port-works, signed and approved by the Government. Mr. Madero's title to the land in question could not be more perfect; 3 years ago this land was valued at a far higher price than that at the mouth of the Thames, Mersey, or Liffey. Two gold sovereigns the square vara was considered dead cheap for what the few sensible people in the market at that period considered a confounded swamp; and the large piece of land containing millions of varas that were to be reclaimed by the Dock Sud Company lies to-day neglected and forgotten by all save those who unfortunately took shares in the concern. The founder of the company, Mr. Paul Angulo, who was considered by many a man of great genius sleeps forever. He died in a Parisian hotel not long ago. Could all the money dropped in these Boca land speculations be gathered together it would form a capital greater than that of the Banco de la Nacion.

The Boulevard question with Mr. Goyo Soler seems to be at last happily arranged, and now we have a prospect that the back premises of this distinguished Argentine politician will be knocked down and no longer offend the eye. Strangers who have come to this city and who admired so much the beautiful proportions of our infant Boulevard, always inquired to whom those wretched premises that obstructed the line of the street belonged, and when told that they were owned by a gentleman who on frequent occasions figured as candidate for the presidency they clasped their hands and walked back to their hotel. 20,000 nats, which after all, is for Mr. Soler a mere "friolera" and would not perhaps cover his house expenses for a year, is the sum which the Municipality pays to this millionaire Argentine. The Neapolitan workmen will now pull down the walls and in a few months the Boulevard will be opened through from the Plaza to the Scotch church. Wondrous coincidence. that this Presbyterian temple should be the only church in town that the Boulevard has to knock down; we believe the price for the church was arranged under the arbitration of Mr. Anchorena some years ago but not yet paid. Nor are we aware if the trustees of the Scotch church have as yet bought a new site for their church; now is a good time for them to secure a good central site.

A very important decision has just been given by the Supreme Court in a case pending between an estanciero of the Capilla del Señor and the Central Argentine Railway Company, respecting the value of the land expropriated by the Company for its line. The Court has condemned the railway company to pay to the estanciero at the rate of $900 the hectare, and furthermore 11,000 nats for loss and damage caused by the line running through his land. This important decision may interest those who contemplate making new railways and have to expropriate the land. The price ordered to be paid for this land comes out at the rate of $2,250,000 the square league.

We have received advices from Montevideo about the last meeting of the creditors of the English Bank. The attendance was so small that either there are very few creditors left, or the bulk of them is quite satisfied with the liquidation so far as it has proceeded. We have every hope that in the time now allowed by the Moratorium the business of the liquidation will be as satisfactorily concluded there as here, and that the new bank will begin operations in the new year.

Advices from the Colony Sunchales, Palacios, Ceres, Arrufo, and some few others report the locusts having done much damage during their short visit, and eaten down all the young crops; but the colonists say that the weather is so fine and the season so early that the wheat will all shoot up again, and consequently if they have no second visit from the locusts they will be all right. In Entre Rios, at a place called Sauce, the locusts have eaten up a square league of wheat; a high wind came on and blew them off to parts unknown.

Another accident occurred in the La Plata dock just as the Tagus was leaving; a shoemaker with a bundle of shoes fell into the dock and but for the heroism of an English sailor, would have remained there. The sailor first saved the shoemaker and then dived to the bottom of the dock and saved the shoes. We hope he got some testimonial from the passengers of the Royal Mail, for he well deserved it.

Mr. Weldon, former manager of the London and River Plate Bank in Montevideo, left for Europe in the Tagus. He has been out here since April and during his sojourn he visited Santa Fé, Paraguay and other parts. We believe he is one of the largest land-holders in Paraguay.

Exchange in Rio has risen to 12 pence, which although a lower figure than ever known during the reign of Dom Pedro II is always an improvement, and goes to show that the Rio money market is coming round, probably by the weight of the great coffee crops of which there are good advices. The rise in the Rio exchange will always be beneficial for this market, and exchange here seems to be advancing even faster than in Rio.

The Caja de Conversoin will burn in a few days a million of the 4½% Bonds delivered by the Provincial Bank of Entre Rios.

Messrs Ledesma Hermanos are the importers of a new Souchang tea called the Sun tea; we have tried it and pronounce it excellent; the price also is moderate; so there can be little doubt as to its quick acceptation in this market. Tea brokers would do well to run round to Mr. Ledesma's and interview him on the subject.

TEA LA MAGNOLIA

INJURIOUS TEA DRINKING.

In the "Daily Post" of September 2 appears a leading article—evidently from an analytical expert—showing that after 15 minutes "draw," Indian Tea yields 17·73 of tannin, while from China comes only 7·93. What this means few know, but those troubled with indigestion may realise in part by use of True China Tea for one week.

The Scotch.

are not the only people who have taught the world at large what is good for breakfast. In America we know that maize in various forms, such as corn-cake, mush etc., is found on every breakfast table. In Argentina too we have risen above the 'puchero' and 'asado' and porridge made from the new Argentine preparation is as common now on our breakfast table as is oatmeal in the cold North.

"The New Digestive Food," made from the finest samples of wheat grown in the Republic, is a perfect substitute for the oatmeal of Scotland, and at half the price here and without the objection of oatmeal in midsummer. Those who have not yet taken it should hasten to try it, as, without doubt, they will find it the best bone and muscle-producer, not only for themselves, but for their growing boys and girls. EXTRACT OF TOBACCO.

According to numerous testimonials which we hold the extract of pure tobacco is the only infalible remedy to radically cure the scab in sheep and naturally the cheapest. As there are several trade marks like ours care must be taken to see that the extract bears the key marks, without which it is not genuine.

Directions for use

One part of extract mixed with 100 to 150 parts of hot or cold water for bath, and with 80 to 100 parts for hand curing.

SHEEP DIP

TRADE MARK

ACARICIDE.

We the undersigned, hereby bear testimony to having witnessed the dipping trials made with the above dip on two flocks of sheep badly infected with scab, at Mr. Patricio Ham's Estancia "Santa Margarita" (Capitan Sarmiento F. C. C. A.), on the dates of May 21st and June 13th 1892.

The dip was mixed in the proportions of one part of dip to forty parts of cold water.—The Sheep and lambs alike were passed through the bath, and we noted that not one single case of poisoning occurred, nor were the sheep uneasy afterwards, proving that the dip contains no poisonous or burning properties. — At the end of June we testify to having examined these sheep and found them **absolutely cured of scab with only once dipping.** We noticed also that they had improved remarkably in condition and that the wool shewed no signs of discolourment. We have every confidence in recommending the "**Thorncliffe Sheep Dip**" as one of the safest and most effective dips that has ever come under our notice.
